ROUTE 602 BRIDGE TO CLOSE FOR CONSTRUCTION MAY 4

Bridge over Pagan Creek will be replaced; traffic to be detoured during project

ISLE OF WIGHT COUNTY, Va. –The Virginia Department of Transportation (VDOT) wants to alert drivers in Isle of Wight County to possible traffic impacts associated with replacement of the Route 602 (Longview Drive) bridge at Pagan Creek. The bridge will close to traffic on May 4, 2015, and will remain closed during the 6-month construction project.

Crews will be replacing the existing bridge using 18" pre-stressed concrete slab spans. The new bridge will be 28 feet wide and 31 feet long, and the work will include improvements to the roadway and railings.

Traffic will be detoured during construction, but access will remain for property owners who live nearby. Detour signs will be posted along the roadside for drivers to follow.

From the North heading South:

Take Route 644 (Bowling Green Road), and turn left onto Route 654 (Carroll Bridge Road). Once you get to Route 600 (Woodland Drive), turn left, which takes you back to Route 602 (Longview Drive).

From the South heading North:

Take Route 600 (Woodland Drive) and make a right at Route 654 (Carroll Bridge Road). Once you get to Route 644 (Bowling Green Road), make a right, which takes you back to Route 602 (Longview Drive).

This project is scheduled to be completed by November of 2015. For more information, visit: http://www.virginiadot.org/projects/hamptonroads/route_602_bridge_replacement.asp
